HUGE SAVINGS for U.S. & OVERSEAS CUSTOMERS!

Catalogue prices are listed in Canadian funds. Thus, for foreign customers (paying in U.S funds with a U.S. credit card, check or money order), our prices are actually much lower than they appear in the catalogue. ***The U.S. dollar gives you between a 20-35% reduction on the prices in our catalogue.*** The actual reduction in cost depends on the exchange rate for the day in which you make your purchase. As a foreign customer, ***using Visa or MasterCard***, you will see the *exact* amount saved, because of the favorable exchange rate, reflected on your monthly credit card statement (in the currency of your country) — though our receipt to you will still appear in Canadian funds. For Americans using credit cards, this amounts to (approximately) an additional 32% off our listed Canadian prices (as of 11/00). ***When paying by Check or Money Order*** (in US funds), use the "US Amount Enclosed" section of our order form to total your order. In this case, you may deduct 20% *directly* from your order (to offset the exchange rate).

Keep in mind you save even more if you use your credit card!

Please note your VISA or MASTERCARD NUMBER, expiry date, and name on the card (if different than above), in the space below. Thank you!
